

Personal Development

Build and Fortify Skills that Transcend Teams

This new product was created to harness the power of The Five Behaviors™ across the entire organization. The Five Behaviors™: Personal Development solution teaches individuals to become better teammates by integrating Patrick Lencioni's model at the organizational level. The goal is to completely redefine teamwork and collaboration.

Personal Development was designed specifically to work for individuals; participants do not all need to be part of the same team. Rather, participants can carry the takeaways of this program from one team to the next, enabling a culture of teamwork. Learners at all levels of an organization can benefit from this program and adopt its powerful principles, shape behaviors, and create a common language that empowers people to rewrite what it means to work together.

The Need for the Solution

Today's organizations are working beyond a single team. Advances in technology are disrupting the market, globalization is forcing a new approach of working, and the teams of the future have never seen this level of diversity. In essence, organizations need to equip their employees to create cohesive teams quickly to enable results. The idea was to create a model that harnesses the Power of Patrick Lencioni's Five Dysfunctions and adjust it to benefit the individual, who can then disperse the key takeaways throughout their organization.

What It Does

This is a tool to help individuals better understand, internalize, and apply the principles of The Five Behaviors of a Cohesive Team® model and to foster communication that can be used throughout an organization.

It's designed to be delivered in a classroom setting to a wide range of participants, regardless of how well they know one another.

The Five Behaviors of a Cohesive Team® Model

Below is a brief summary of the five behaviors.

- Trust One Another
 When team members are genuinely transparent and honest with one another, they are able to build vulnerability-based trust.
- Engage in Conflict Around Ideas
 When there is trust, team members are able to
 engage in unfiltered, constructive debate
 of ideas.
- Commit to Decisions
 When team members are able to offer opinions
 and debate ideas, they will be more likely to
 commit to decisions.
